

AutoKlean

vehicle valeting specialists

WASH 'N' WASH MOBILE VALETING DIVISION

Specialists in vehicle valeting, detailing and mobile valeting services. Autoklean have created Wash 'n' Wax (a division of the group) to guarantee you receive the highest standard of valeting service and care, our experienced team will ensure that your cars are brought back to their natural glory, inside and out.

Our full range of services helps you tailor make the package you need within a budget that suits you, mobile valeting units are fully self contained and are equipped for all cleaning tasks. High pressure jet washers fed by on board water tanks and a portable generator if a mains power supply is unavailable at the cleaning site help ensure we can service your car anywhere.

SUPAGARD protection systems

Paint Sealant - has been professionally applied to vehicles throughout the UK for the past 15 years. The whole idea behind the Paint Sealant is to protect your vehicle's paintwork from the harsh environment that surrounds it; namely UV rays produced by the sun which can fade paintwork. Fallout from trees, tree sap and salt on the roads are other contributors to fading and corrosion.

Carpet & Upholstery - products prevent spills of coffee, tea, milk, soft drinks, juices, water and other similar liquids from permanently staining your fabrics and carpets. The dirt can be either vacuumed or wiped off with a gentle cleaning solution. The invisible barrier helps reduce friction between the fibres prolonging their life. This allows the Fabrics and Carpets to retain their natural texture and appearance.

Vinyl Protection - creates a non-glossy, non-greasy, anti-static finish on all vinyl and plastic surfaces. The benefits of Supagard Vinyl Protection prevent the sun's UV rays from penetrating the vinyl; thereby fading and cracking it's surface. Protects against the haze effect of windscreen bloom. The Vinyl Protection system also keeps your car's vinyl flexible whilst maintaining it's appearance.

Leather Care - is an exclusive formula specially designed by Supagard for the cleaning of Leather in today's vehicles. This specialised cleaner preserves the car's leather. Conditioners in the cleaner gently assist in maintaining the supple, natural feel of the leather. No need for soaps, cream or waxes. As the Leather Cleaner is part of the After Care range.
